

PRODUCT DESCRIPTION:

STONETEX SEALER is a single-component clear acrylic coating. Formulated to withstand the extreme conditions of interior and exterior service such as exposure to U.V. sunlight as well as temperature fluctuations.

PRODUCT FEATURES:

- Fast drying and easy to apply.
- Will not break down or yellow with exposure to U.V. light
- Abrasion resistant , will stand up to heavy foot traffic as well as light to medium duty vehicular traffic
- Excellent chemical resistance to salts, acids,alkalis, detergents, oils and fats
- Flexible, unaffected by temperature fluctuations and thermal shock
- Non-staining and scrubbable
- May be used on properly prepared metal surfaces.

TYPICAL USES:

- Seals interior and exterior concrete and masonry (eg. concrete or interlocking brick driveways,walkways, stamped concrete, acid stains, polymer concrete overlays.)
- Cure and Seal for concrete.

APPLICATION:

- Self-priming on bare concrete or masonry.
- Applied by brush, roller or sprayer(airless or air spray)
